

Student practice/Bachelor diploma mentorship

Transport Systems

Are you interested in discovering the highest standard technologies and practices in trousers sewing?

Would you like to experience the making of premium brands products?

Do you feel that high standards are the only standards appropriate for you?

Come and get trained in one of Dr. Bock Industries sewing units in Romania under the mentorship of some of the best worldwide experts in trousers making.

You will experience a multicultural environment altogether with professionals from all over Europe and Asia.

Working on Transport Systems Projects you will collect know how in:

- Analyze of work processes
- Development and implementation of tools to reduce handling times at needle point
- Workplace engineering and arrangement
- Realization and documentation of measurable improvements and results
- Self driven Project management
- Leadership and communication
- Team work

The practice duration is between 3 to 6 months. Accommodation is offered by the company.
